100 Piece 1385-99-225-9670

The ABP Non Magnetic Tool Kits are designed for work with Unexploded Ordnance (UXO) where the presence of objects that might cause or interfere with a magnetic field may pose added risk. The kits supplied are manufactured, tested and certified for compliance with STANAG 2897 Annex C and supplied complete with a robust packing and carrying case.

The standard kits are supplied containing either 36, 85 or 100 pieces and both imperial, metric or a combination of standards are available. In addition to these standard kits, ABP is able to supply bespoke kits of tools ranging from small hand tools to larger tools such as spades, picks, crowbars etc. Contents lists for the standard kits are supplied overleaf.

ABP operates an accredited Magnetic Test Facility and can offer re-test / calibration facilities for supplied equipment, or independent testing of customers' equipment to STANAG 2897 Annex C.
