The Hotrod Disruptor is a multi-shot device capable of many firings and requires minimum maintenance. Training may be carried out using the equipment without detriment to its service performance.

Hotrod may be deployed using an optional lightweight stand or by mounting to a Remotely Operated Vehicle (ROV) such as ABP's Cyclops or Guardian.

Preparation of the Disruptor is straightforward and quick to achieve and may be carried out remotely from the target to enhance operator safety.

Hotrod is constructed from non corroding stainless steel parts which are manufactured in accordance with ABP's ISO 9001 quality approval system. Prior to release each equipment is subjected to an over pressure proof test and flaw detection.

The Hotrod is supplied as a complete kit (less stand) in a valise style holdall which includes pockets to secure all parts.
