

HOTROD

Hotrod Disruptor is an established equipment for disruption of IEDs which are contained in larger or better protected devices such as suitcases.

Hotrod Disruptor has been in active service for over 25 years with many bomb disposal teams worldwide and has been proven to be an extremely reliable method of disruption.

It is a multi-shot device capable of many firings and requires minimum maintenance. Training may be carried out using the equipment without detriment to its service performance.

Hotrod may be deployed using an optional lightweight stand or by mounting to a Remotely Operated Vehicle (ROV) such as the Sentinel.

Preparation of the Disruptor is straightforward and quick to achieve and may be carried out remotely from the target to enhance operator safety.

COMPLETE EQUIPMENT

DESCRIPTION:	PART NUMBER:	QUANTITY:
Disruptor Main Body	TX2243	1
Disruptor Rear Body	TX389A	1
Contact Cover	TX1463	1
Water Bottle	ABL1000-19	1
Loading Tool	TX416A	1
Cleaning Brush	23385A	1
Cleaning Rod	23325A	1

PT 1516 CARTRIDGES

Hotrod is operated by a bespoke cartridge. Each batch of cartridges are ballistically tested to ensure correct and consistent performance. The cartridges are supplied in multiples of 10 packaged within an M2A1 container complete with all internal furniture and all required consumable parts.

PART NO: PT1516
NSN: 1385 99 666 8704

TECHNICAL DATA

DISRUPTOR:

Length: 485mm, main body dia: 50mm, rear body dia: 65mm, weight: 3.5Kg

HOLDALL:

Size: 500 x 300 x 200mm, overall weight: 6.5Kg
